

License Agreement – 1 Year Lease

Myra Golden Seminars eLearning files are licensed on a royalty-free basis, which means you pay for the initial download of the SCORM files and don't have to pay us each time you use the e-learning modules and data. E-Learning files licensed from Myra Golden Seminars can be used in as many projects within the purchasing company as you like or as long as you want. The rest of the terms of Myra Golden's eLearning License Agreement are:

- **Annual**, meaning you have rights to use the eLearning files for 12 months. After one year, you must renew your lease or cease and desist use of all LMS courses.
- **Non-exclusive**, meaning that you do not have exclusive rights to use the content. Myra Golden can license the same content to other customers.
- **Unlimited**, meaning you can use the eLearning files in an unlimited number of eLearning projects within your organization.

For purposes of this agreement, "use" means to copy, reproduce, modify, edit, integrate into existing eLearning platforms, display, broadcast, publish, or otherwise make use of.

Examples of how you can use licensed eLearning content include LMS (learning management systems), classroom training, corporate intranet, corporate presentations, integrated within other LMS modules.

Reach out to us at info@myragolden.com with questions about this Agreement.
